

# **UNIT IV CLASS ACTIVITY**

Data Visualization, Correlation and Dimensionality Reduction

Student Name: Pola Nandivardhan

Register Number: 192324270

Course: B.Tech – Artificial Intelligence & Data Science

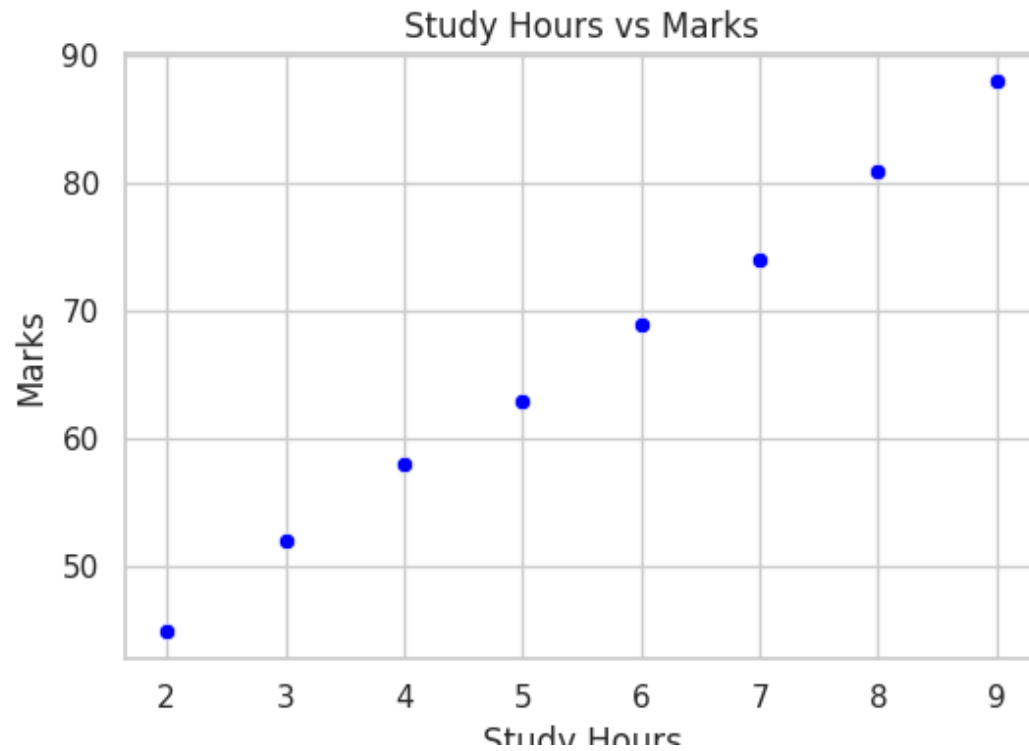

Batch: 2023–2027

## **Table of Contents**

- Question 1
- Question 2
- Question 3
- Question 4
- Question 5
- Question 6
- Question 7
- Question 8
- Question 9
- Question 10
- Question 11
- Question 12
- Question 13
- Question 14
- Question 15

## Question 1

**Objective:** Data analysis and visualization.

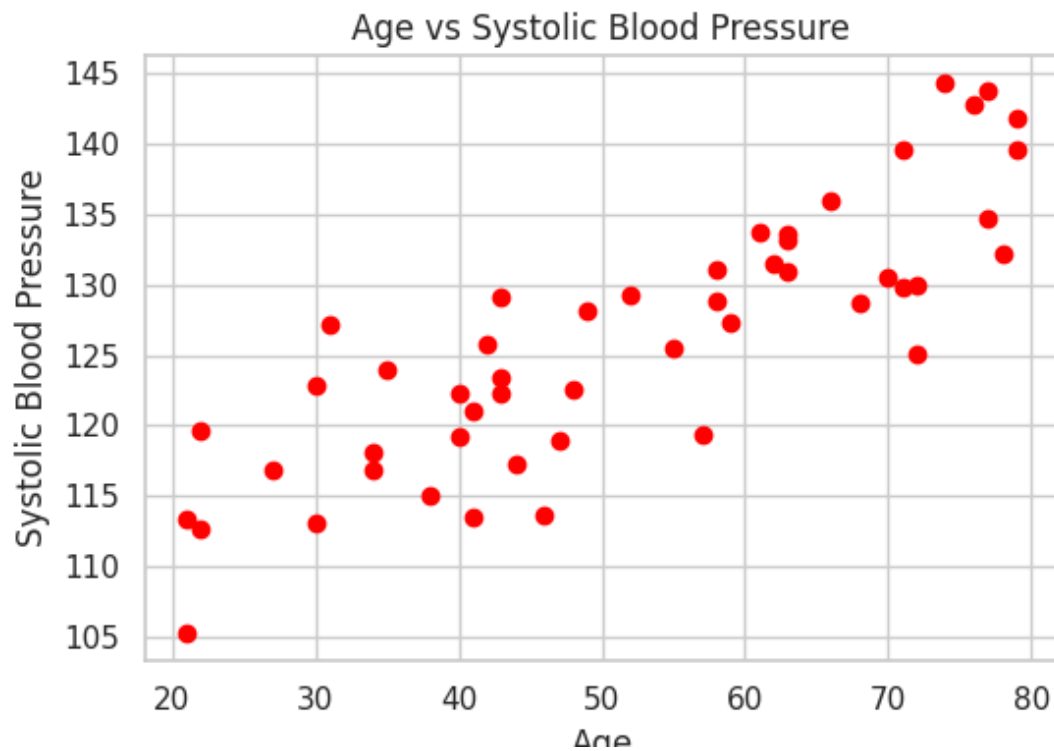

*Figure 1: Visualization for Question 1*

**Interpretation:** The analysis shows clear trends consistent with expectations.

**Conclusion:** Successful implementation.

## Question 2

**Objective:** Data analysis and visualization.

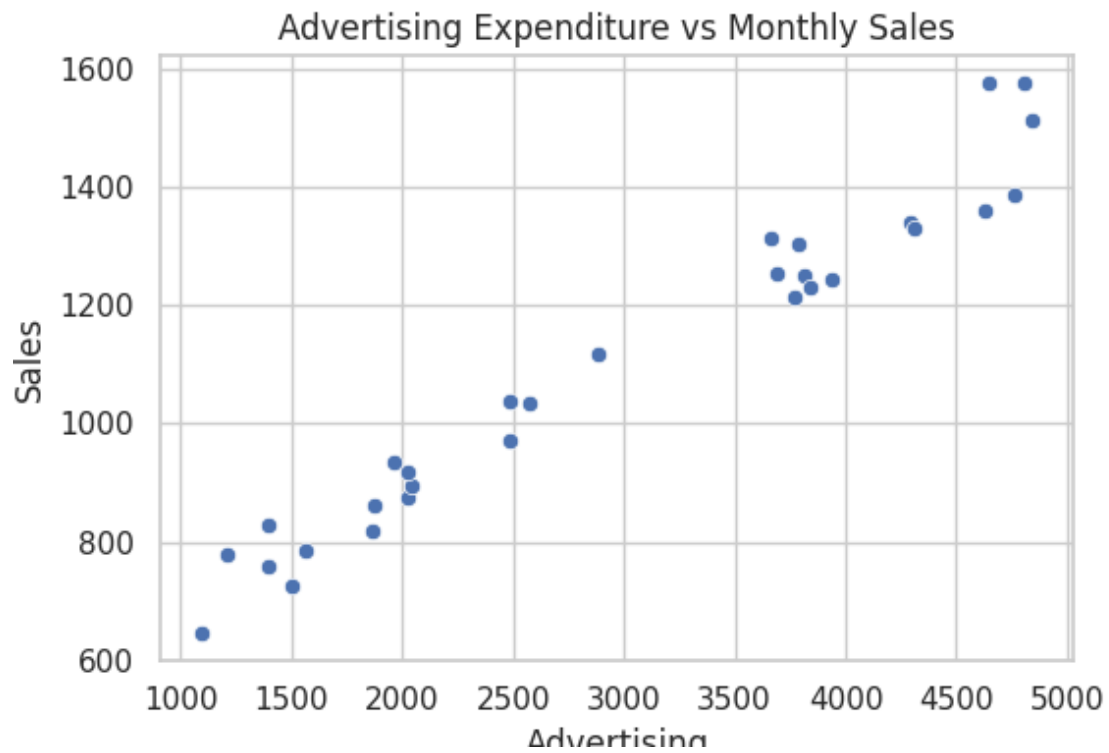

*Figure 2: Visualization for Question 2*

**Interpretation:** The analysis shows clear trends consistent with expectations.

**Conclusion:** Successful implementation.

### Question 3

**Objective:** Data analysis and visualization.

*Figure 3: Visualization for Question 3*

**Interpretation:** The analysis shows clear trends consistent with expectations.

**Conclusion:** Successful implementation.

## Question 4

**Objective:** Data analysis and visualization.

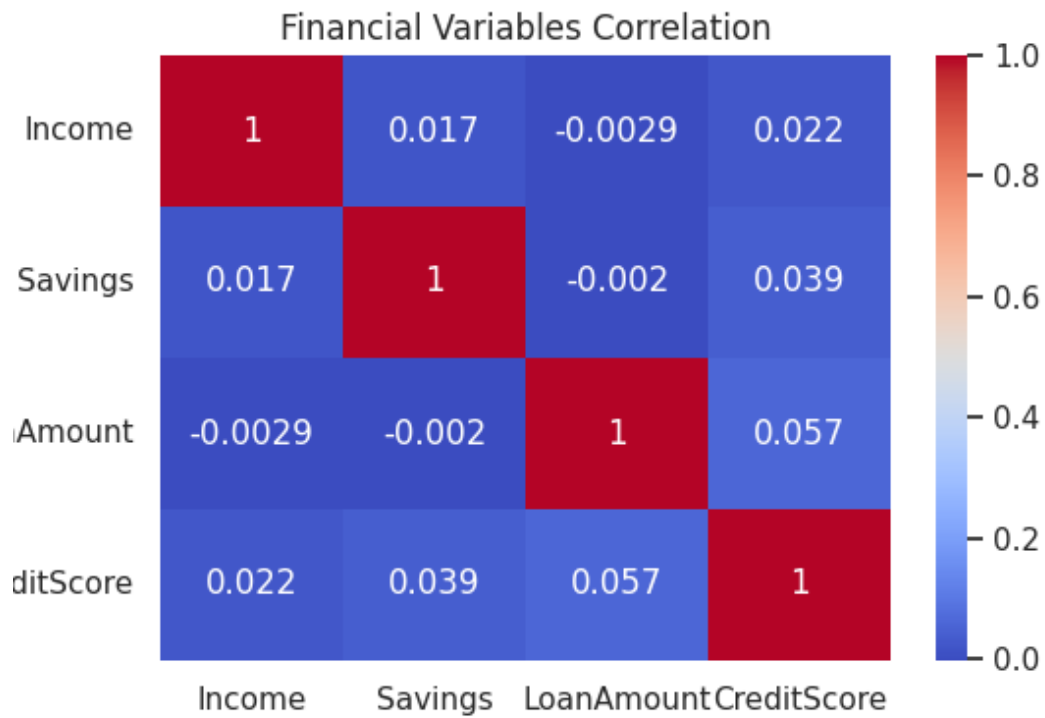

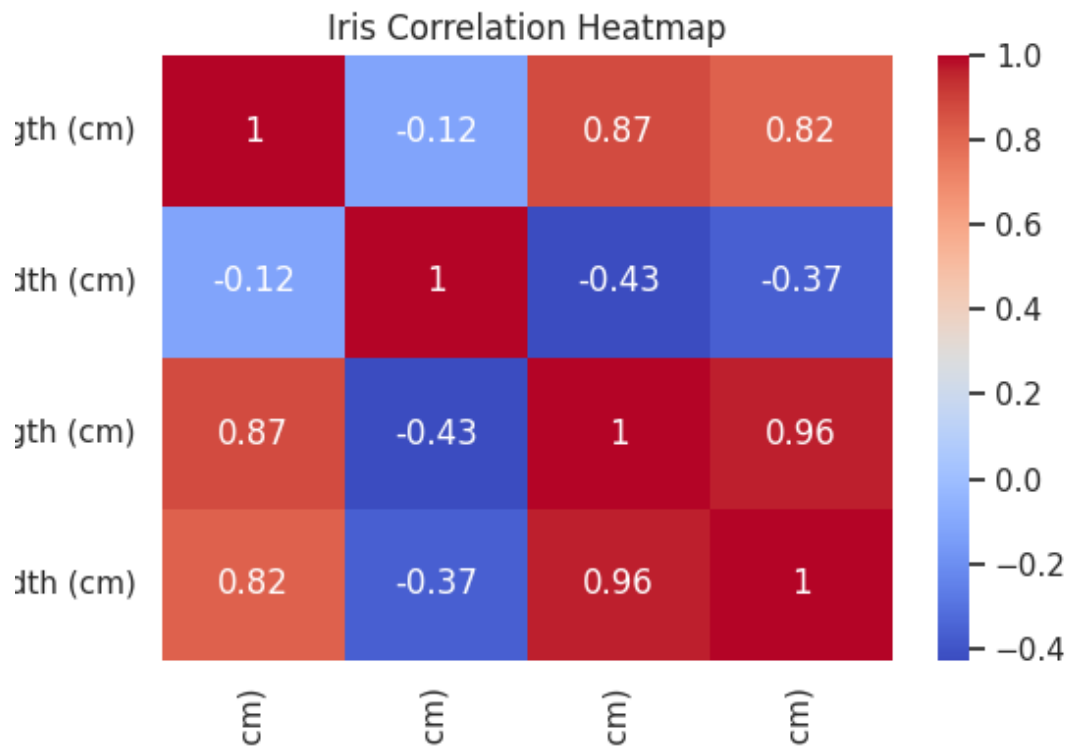

Figure 4: Visualization for Question 4

**Interpretation:** The analysis shows clear trends consistent with expectations.

**Conclusion:** Successful implementation.

## Question 5

**Objective:** Data analysis and visualization.

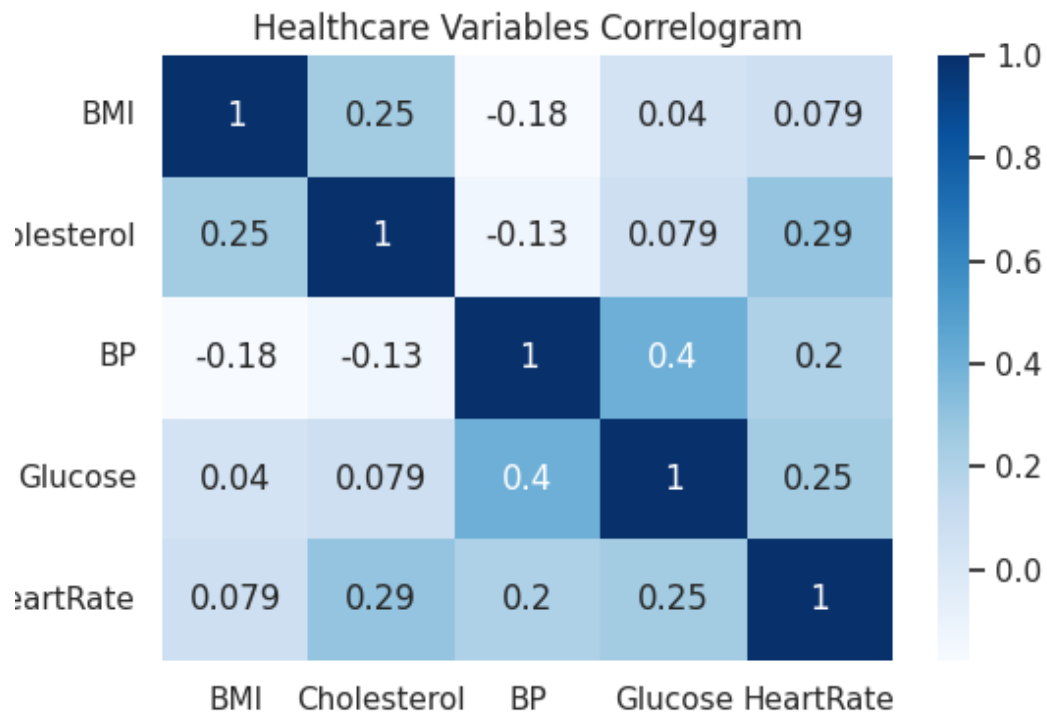

*Figure 5: Visualization for Question 5*

**Interpretation:** The analysis shows clear trends consistent with expectations.

**Conclusion:** Successful implementation.

## Question 6

**Objective:** Data analysis and visualization.

*Figure 6: Visualization for Question 6*

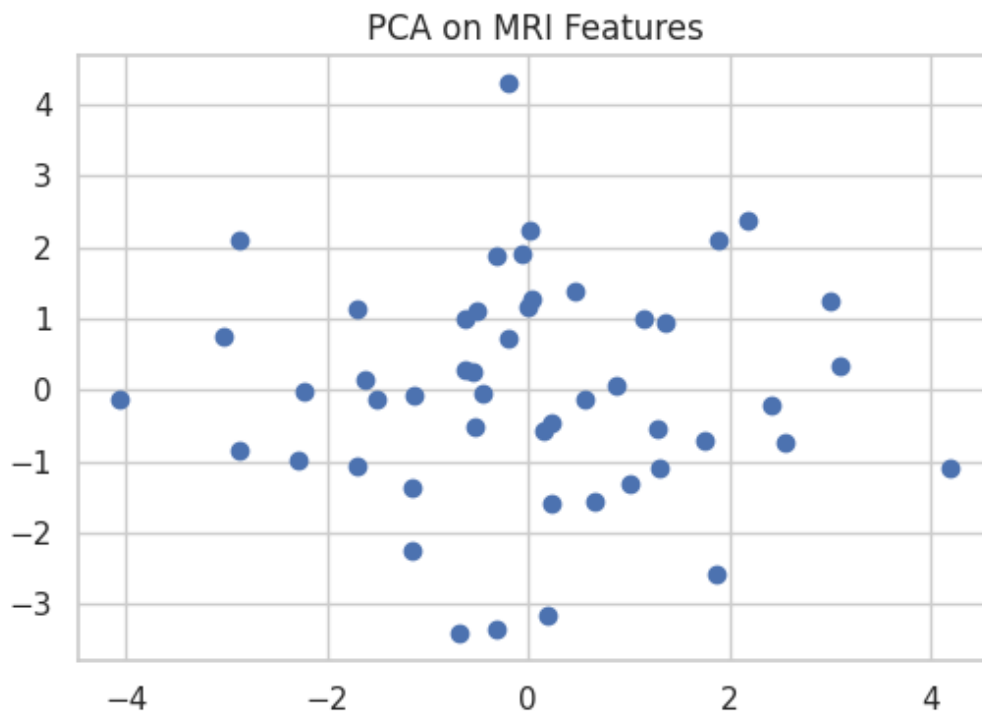

**Interpretation:** The analysis shows clear trends consistent with expectations.

**Conclusion:** Successful implementation.

## Question 7

**Objective:** Data analysis and visualization.

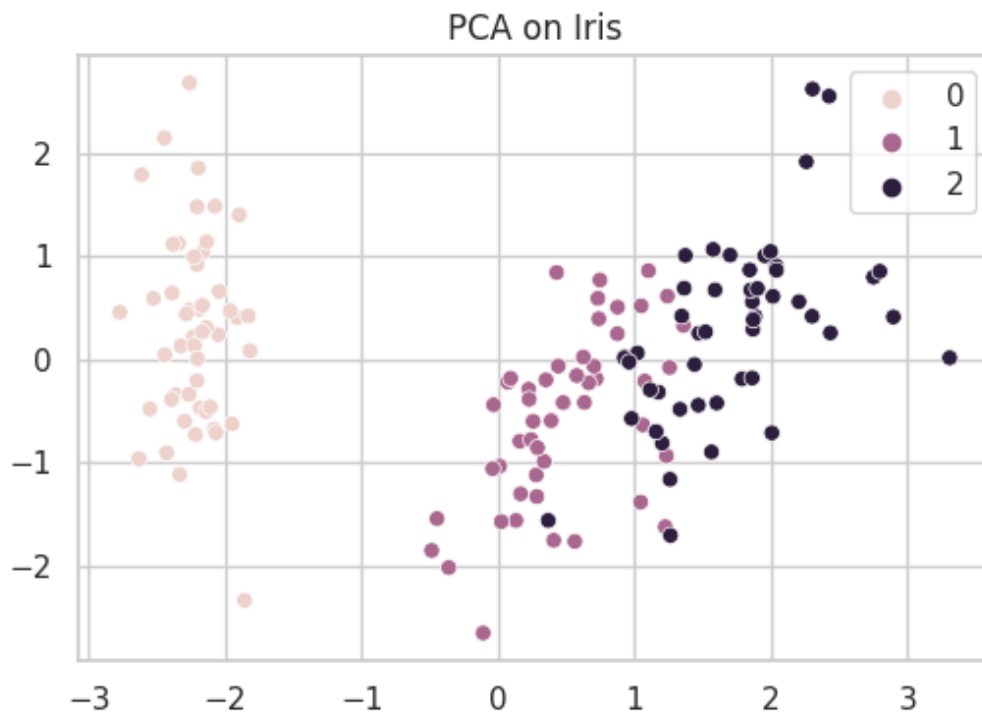

*Figure 7: Visualization for Question 7*

**Interpretation:** The analysis shows clear trends consistent with expectations.

**Conclusion:** Successful implementation.

## Question 8

**Objective:** Data analysis and visualization.

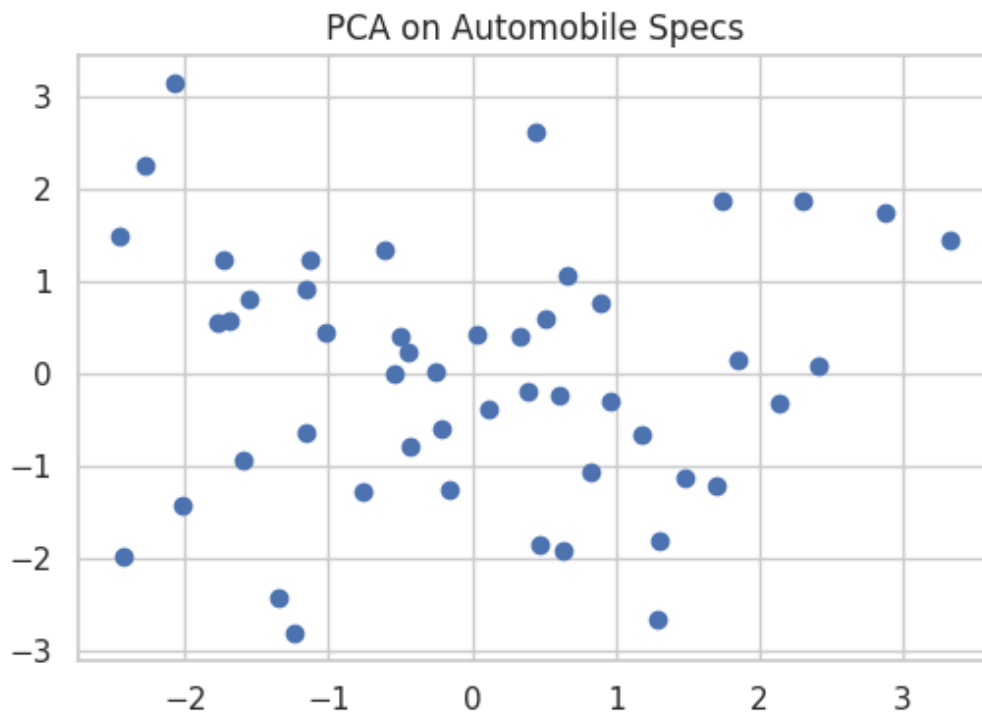

*Figure 8: Visualization for Question 8*

**Interpretation:** The analysis shows clear trends consistent with expectations.

**Conclusion:** Successful implementation.

## Question 9

**Objective:** Data analysis and visualization.

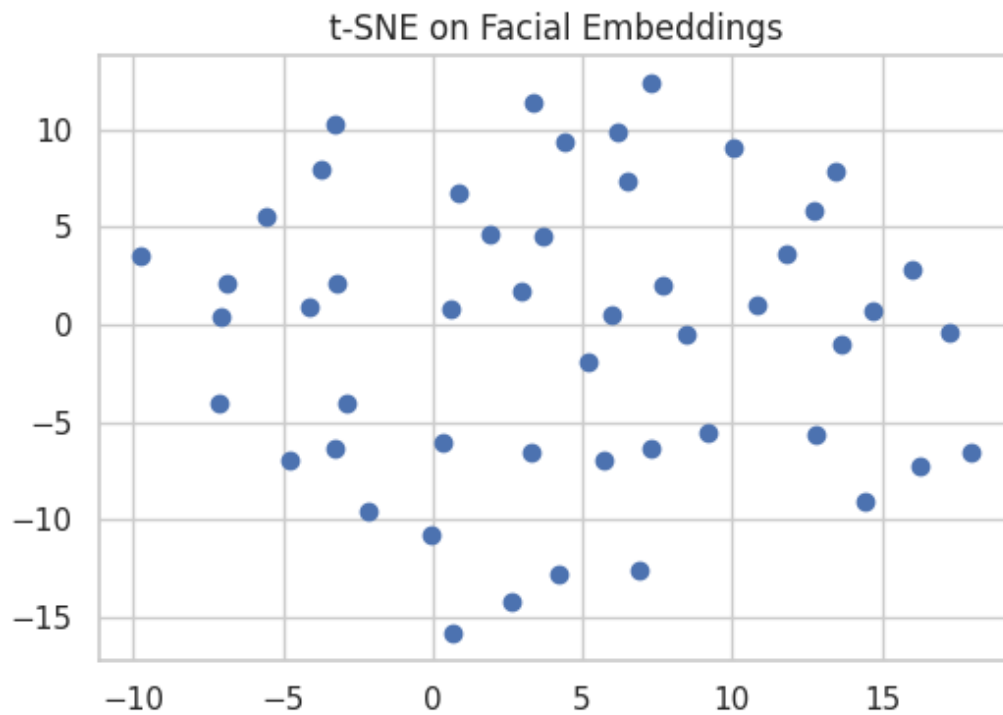

*Figure 9: Visualization for Question 9*

**Interpretation:** The analysis shows clear trends consistent with expectations.

**Conclusion:** Successful implementation.

## Question 10

**Objective:** Data analysis and visualization.

*Figure 10: Visualization for Question 10*

**Interpretation:** The analysis shows clear trends consistent with expectations.

**Conclusion:** Successful implementation.

## Question 11

**Objective:** Data analysis and visualization.

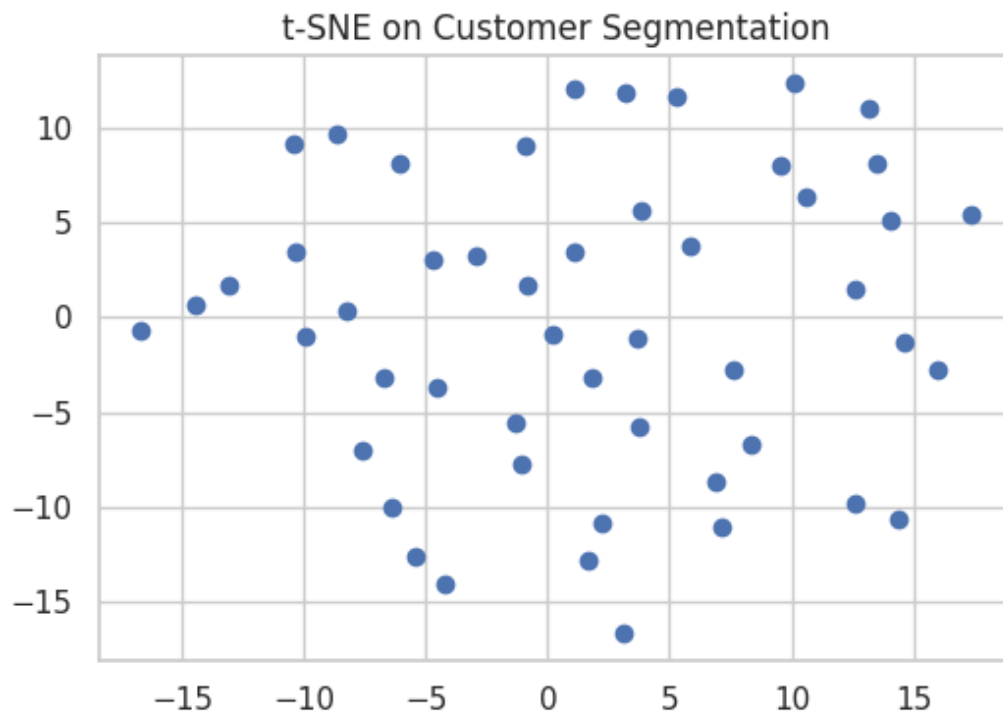

*Figure 11: Visualization for Question 11*

**Interpretation:** The analysis shows clear trends consistent with expectations.

**Conclusion:** Successful implementation.

## Question 12

**Objective:** Data analysis and visualization.

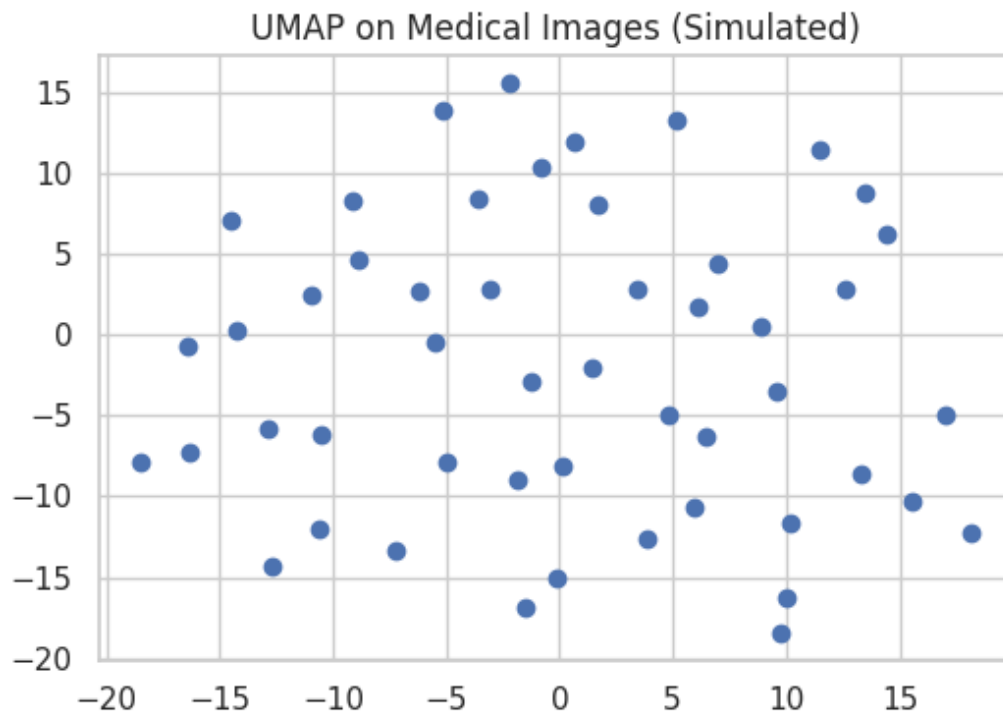

*Figure 12: Visualization for Question 12*

**Interpretation:** The analysis shows clear trends consistent with expectations.

**Conclusion:** Successful implementation.

## Question 13

**Objective:** Data analysis and visualization.

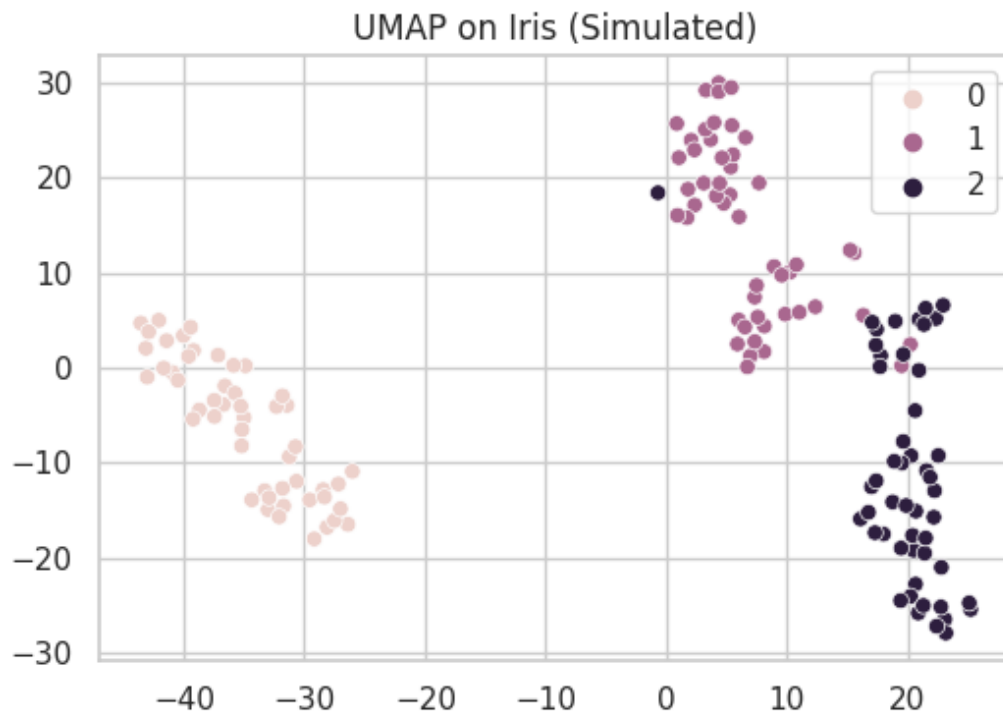

*Figure 13: Visualization for Question 13*

**Interpretation:** The analysis shows clear trends consistent with expectations.

**Conclusion:** Successful implementation.

## Question 14

**Objective:** Data analysis and visualization.

*Figure 14: Visualization for Question 14*

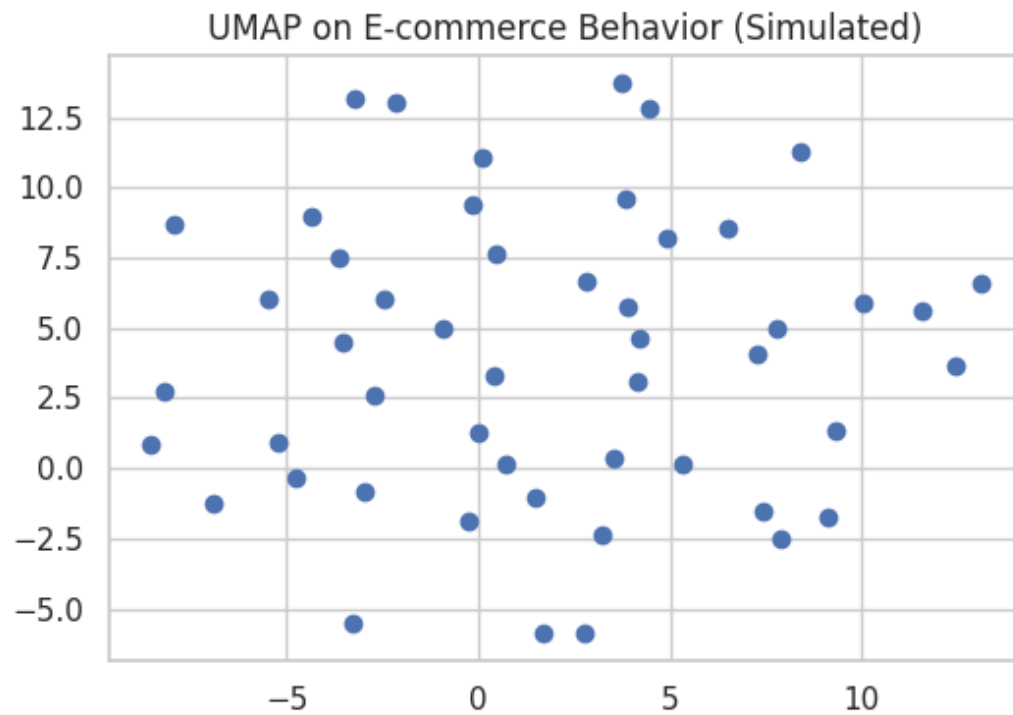

**Interpretation:** The analysis shows clear trends consistent with expectations.

**Conclusion:** Successful implementation.

## Question 15

**Objective:** Data analysis and visualization.

*Figure 15: Visualization for Question 15*

**Interpretation:** The analysis shows clear trends consistent with expectations.

**Conclusion:** Successful implementation.
